

Using the built-in cameras and mics in RISC Classrooms

RISC 104, 260, 262, 362 and 460 are equipped with installed cameras and microphones for use with Zoom, Meet, Panopto, etc.

These devices are wired directly to the podium PC, you cannot use them with a laptop.

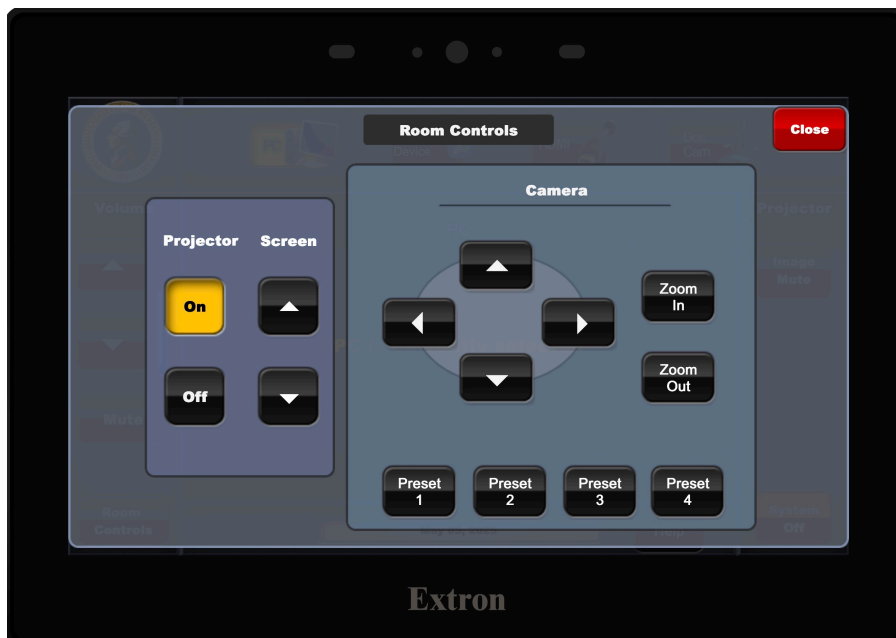

Positioning the cameras

Select the *Room Controls* button on the lower left of the touch panel.

Saving and recalling presets

To save a camera preset, position the camera in the desired position then press and hold one of the *Preset* buttons until “Preset Saved” appears above the buttons.

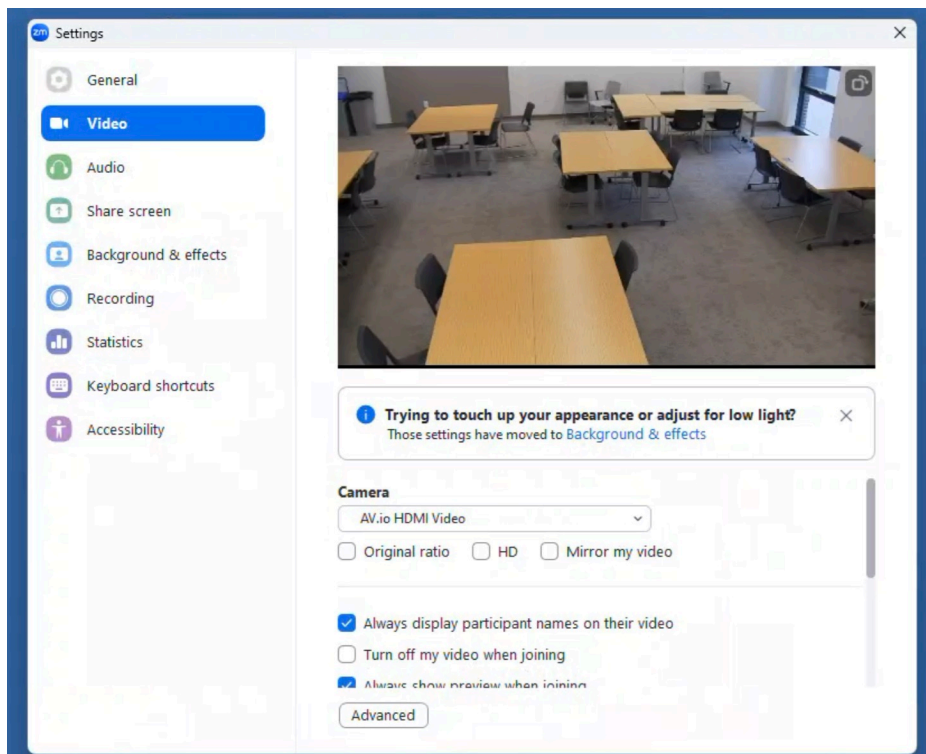

Repeat this process for the other presets.

Once saved, recall the preset by pressing 1-4.

Presets are saved until overwritten with a new preset location.

Choosing the correct audio and video sources in Zoom

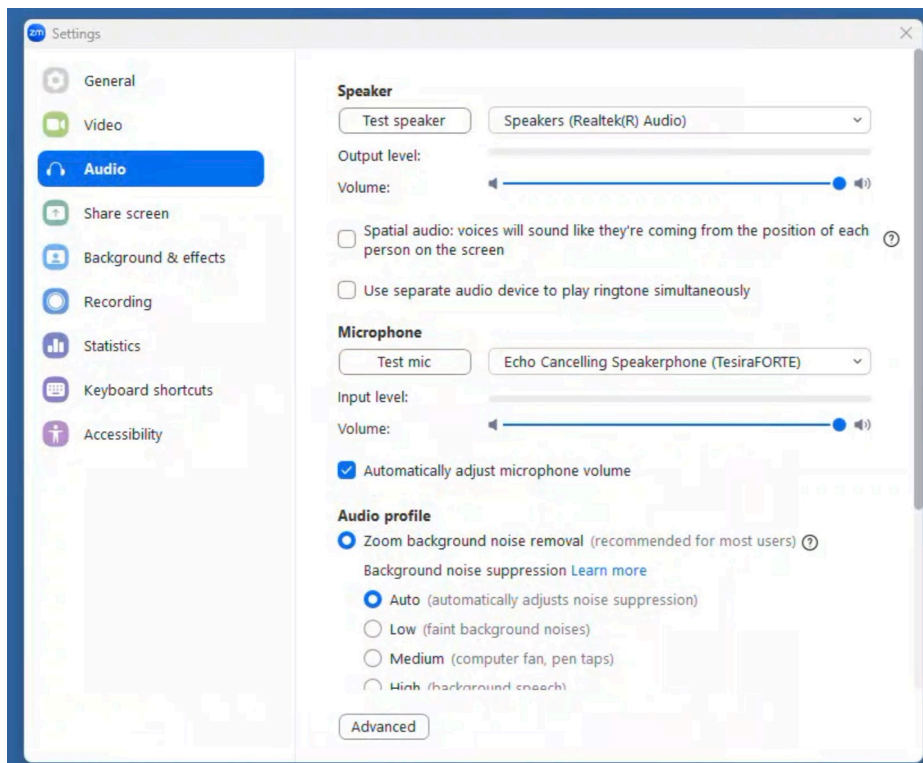

Video source

Be sure “AV.io HDMI Video” is selected as the camera.

Turn off “Mirror my video” so that the camera controls are correctly oriented.

Audio source

Be sure “Speakers (Realtek Audio)” is selected as the speaker.

Be sure “Echo Cancelling Speakerphone (TesiraFORTE)” is selected as the microphone.
